

SHIVAPRASAD L. GAONKAR

• .NET Full Stack Developer | C# · ASP.NET MVC · Web API · SQL Server · JavaScript

Karwar, Karnataka, India | +91 8073860182 | shivaprasadlgaonkar@gmail.com | [GitHub](#)

PROFESSIONAL SUMMARY

ASP.NET/C# developer with 1 year 8 months building production web applications for healthcare and telecom clients at Quadwave Consulting — end-to-end MVC modules spanning SQL Server, ASP.NET MVC/Web API, and jQuery/Kendo UI, plus client-reported bug fixes within SLA. Looking for a backend/full-stack .NET role to keep building on this foundation.

TECHNICAL SKILLS

Languages & Frameworks: C#, ASP.NET MVC 5, ASP.NET Web API, Razor Pages, ADO.NET, Entity Framework

Frontend: HTML5, CSS3, JavaScript (ES6+), jQuery, AJAX, Kendo UI, Bootstrap, Tailwind CSS

Database: MS SQL Server — Queries, Stored Procedures, Triggers, Performance Tuning

API & Tools: REST API Design, Swagger, Git/GitHub, Visual Studio, VS Code, SSMS

Practices: Agile/Scrum, Code Reviews, Root-Cause Analysis, SLA-Based Bug Resolution

PROFESSIONAL EXPERIENCE

Quadwave Consulting Pvt. Ltd, Bangalore

Solutions Developer

Apr 2023 – Jun 2024

- Built and shipped new features for two live enterprise web applications, working directly with client requirements through to production-ready code.
- Designed and delivered ASP.NET MVC 5 modules end-to-end, from SQL Server schema design through backend logic to the frontend UI.
- Root-caused and fixed recurring production bugs, reducing repeat tickets on the affected modules.
- Took part in sprint planning, code reviews, and daily standups as part of a cross-functional Agile team.

Associate Solutions Developer

Oct 2022 – Apr 2023

- Ramped up on a live production codebase and independently delivered assigned Razor Pages modules within the first month on the team.
- Partnered with senior developers to learn the system architecture, optimize SQL stored procedures, and integrate RESTful APIs in C#/.NET.
- Maintained clean Git version control across a shared team codebase throughout the release cycle.
- Resolved client-reported bugs on a healthcare-domain project within SLA, keeping the application stable for end users.

KEY PROJECT HIGHLIGHTS

Cloud-Based Business Management Platform — Telecom Domain, SaaS Platform

- Shipped client-requested features spanning new UI screens, workflow rules, and customer-journey enhancements.
- Optimized slow-loading SQL Server queries to bring problem pages back within acceptable load times.
- Integrated Kendo UI to build dynamic operator dashboards, letting the business team configure UI behavior without a code deployment.

Stack: C#, ASP.NET MVC 5, ADO.NET, MS SQL Server, JavaScript, jQuery, Kendo UI, Bootstrap, HTML5, CSS3, Git

Invoice Tracking & Follow-up Application — Healthcare Domain

- Built a web application that pulls invoice data from an external system and presents it in a structured view for the finance team.
- Implemented overdue-invoice detection with automated reminder notifications, improving collections follow-up.
- Added a distributor self-service feature for checking outstanding balances, and fixed cross-browser UI bugs using AJAX for partial page updates.

Stack: C#, ASP.NET MVC 5, Razor Pages, ADO.NET, JavaScript, jQuery, AJAX, Bootstrap, MS SQL Server, Swagger

ACADEMIC & PERSONAL PROJECTS

Shopping Cart — ASP.NET E-Commerce

- Built a full-featured online shopping cart covering product catalog, cart management, and order placement.

Stack: C#, ASP.NET, ADO.NET, SQL Server

EDUCATION

B.E. in Computer Science & Engineering

2020

Girijabai Sail Institute of Technology (GSIT), Karwar | Visvesvaraya Technological University (VTU)

Pre-University — Science

2015

Divekar Commerce and Science P.U. College, Karwar
